HG car cleaner and protector

- with special wax components
- adds more shine and protection
- easier to dry off
- stays clean longer
- enough for washing 55 times

HG car cleaner and protector is an ultra-modern car cleaner that stands out for its extremely high gloss and improved protection. *HG car cleaner and protector* adds wax components as the car is washed. The car is washed and protected at the same time. The car is also made easier to wipe down and stays clean for much longer. This highly concentrated product is enough for 50 to 60 washes, which makes it very economical to use.

Directions for use: First rinse the car with clean water. Then add 2 to 3 caps of *HG car cleaner and protector* to a bucket of water. Wash the car, rinse it with clean water and wipe it down, preferably with a chamois leather. Don't forget the windows! Result: a perfectly clean and gleaming car.

Transport and store the bottle upright.
