HG chandelier spray cleaner

A fast working spray cleaner that cleans without difficult and messy cleaning by hand. Regular spraying prevents heavy soiling and dissolves dirt and grime. HG "chandelier spray cleaner" dries quickly and leaves a shine.

Directions for use: Turn the nozzle on the front side a quarter. Switch off electricity before use. Cover objects and/or floor underneath the chandelier. Spray difficult to reach areas between the crystal and the armatures generously so that the chandelier spray cleaner drips down together with the dirt and grime. Avoid spraying on open sockets and electricity wires. Should this nevertheless happen, wipe them dry before switching the electricity back on. Turn the nozzle a quarter after use (OFF).

Attention: Transport and store the bottle upright. P101- If medical advice is needed, have product container or label at hand. **P102-** Keep out of reach of children.

Medical personnel can request the data sheet via +31 (0)36 54 94 777
