HG grease away

HG "grease away" thoroughly removes animal and vegetable fats and food oils. It is a safe product for stainless steel, galvanised, enamel and aluminium surfaces as well as ceramic tiles and synthetic materials. HG "grease away" is also available in a handy refill container.

Directions for use: Turn the nozzle on the front side a quarter. Spray the surface to be cleaned. Leave it to work for a few seconds. If applied on stainless steel, spray HG "grease away" on a clean cloth and then clean the surface. Then wipe up the grease with a cloth, preferably soaked in hot water. Depending on the degree of soiling, repeat the treatment. Turn the nozzle a quarter after use (OFF). For cleaning baked on grease and food remnants inside microwaves and combination microwaves, please use HG "(combi) microwave cleaner".

Attention: Transport and store the bottle upright. Do not use on (high) gloss paint/varnish. • Medical personnel can request the data sheet via +31 (0)36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu

Biodegradable
according to regulation
648/2004/EC

contains a.o.:	
non-ionic surfactants, NTA (nitrilotriacetic acid) and salts thereof	< 5%
