hob cleaner for everyday use

suitable for ceramic hobs,
induction hobs, gas hobs
and glass hobs

500 ml e

HG hob cleaner for everyday use

A fresh-smelling everyday cleaner for all types of ceramic, induction and halogen hobs. Easily removes everyday dirt such as grease, water marks and light limescale

Directions for use: Turn the nozzle on the front side a quarter. Spray HG "hob cleaner for everyday use" onto the hob to be treated a number of times and briefly allow to soak in. Remove with a damp cloth and then rub dry with a clean kitchen towel or kitchen roll. Turn the nozzle a quarter after use (OFF). For more stubborn and dried-on stains on ceramic and halogen hobs we recommend the use of HG "hob thorough cleaner".

Attention: Transport and store the bottle upright. Do not use on a warm hob. • Medical personnel can request the data sheet via +31 (0)36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu
