HG intensive plastic cleaner

A brilliant cleaner for all types of plastic, washable wallpaper and paintwork. Cleans intensively without risk of dulling. Effortlessly removes nicotine deposits and atmospheric dirt and most other stubborn staining. Particularly suitable for plastic materials such as formica kitchen units and plastic tongue and-groove, cladding, blinds, sun beds etc.

Directions for use: Turn the nozzle on the front side a quarter. Spray HG "intensive plastic cleaner" either onto a cloth or directly onto the surface to be cleaned. Leave to work a minute or two before wiping off the dirt with dry kitchen paper or cloth. For stubborn stains allow the cleaner to work for a little longer. Turn the nozzle a quarter after use (OFF). **Transport and store the bottle upright.** • Medical personnel can request the data sheet via +31 (0)36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu
