

## **HG stainless steel quick shine**

HG "stainless steel quick shine" is a ready-to-use maintenance and protective agent for stainless steel surfaces. This product is very simple to apply and gives a streak free shine that lasts for weeks. It's ideal for use in the kitchen on cooker hoods, fireplaces, hobs, rear walls and panels etc.

**Directions for use:** Apply a few drops of HG "stainless steel quick shine" to a dry, lint-free cloth and apply to the surface evenly. If necessary, leave to dry for 2 minutes and polish lightly again with a soft, dry cloth. If the surface is very greasy or dirty, then we recommend cleaning with HG "grease away" first. **Attention: Transport and store the bottle upright. P101-** If medical advice is needed, have product container or label at hand. **P102-** Keep out of reach of children. • Medical personnel can request the data sheet via +31 (0)36 54 94 777 • The consumer's information sheet can be obtained via [www.HG.eu](http://www.HG.eu)
