cleans, polishes and protects

250 ml ℮

HG steel polish

HG "steel polish" is a maintenance product for:
- **stainless steel sinks, draining boards, pots, pans and kitchen utensils**
- **aluminium pots and pans, etc.**
- **copper pots and pans, etc.**
- **hard synthetic kitchen sinks and draining boards**
- **chrome taps, kettles etc.**
- **ceramic and electric cooking rings**

HG "steel polish" cleans, polishes and protects in one go. HG "steel polish" is gentle on the skin. Its protective action prevents rapid resoiling.

Directions for use: Shake before use. Put some HG "steel polish" on a damp cloth and rub well onto the object or the surface to be cleaned. Rub in one direction for the best result. Rinse away or wipe off with a clean cloth, then polish with a dry cloth. If there are only light markings to be removed HG "steel polish" may be rubbed on with a damp sponge and then wiped off afterwards for quick and easy cleaning. For a streak-free shine that lasts all week on stainless steel cookers, extractor hoods and splash backs etc. we recommend HG "stainless steel quick shine".

Attention: Transport and store the bottle upright. 1,16% of the mixture consists of component(s) of unknown toxicity. Keep in a frostfree area. • Medical personnel can request the data sheet via +31 (0)36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu
